Style 2025 HeatClean

Description: Style 2025 HeatClean is made of 100% fiberglass textured yarns. The textured yarns gives the cloth an improved weave integrity and abrasion resistance. An additional heat cleaning process burns off access seizing or dust and purifies the fabric. This process, also called caramelizing, changes the natural color White of the cloth to Tan.
Style 2025 HeatClean is designed for industrial uses such as pipe lagging, removable insulation blankets, fire blankets, curtains, heat shields, stress relieving blankets, jacketing and gasketing..
Style 2025 HeatClean is applied to a standard 18 oz./ syd fabric style.

Physical Properties:

Color	Tan
Weight (Oz./Syd.)	18
Thickness (inch)	.031
Width (inch)	60
Length (linsyd.)	50
Weave	Plain
Chemical Resistance	Resists most acids and alkalis. (Except hydrofluoric acid and hot phosphoric acid). Won't rot.
Service Temperature	1,000 degr. F (538 degr. C)

Recommended Uses: Pipe lagging, removable insulation blankets, fire blankets, curtains, heat shields, stress relieving blankets, jacketing and gasketing..
